## **Understanding Dementia**

*Gaining a better understanding of dementia can help us support someone with dementia to live well. At this forum, you will learn about:*

- **Global and Local** data and information on dementia
- **The Brain**, the pathology of the diseases that cause dementia, the symptoms and ways we can use this understanding for better support and care
- **The Diseases**, risk factors, diagnosis, medical management, stages and focused support as well as non-pharmacological approaches
- **The Person**, on living well with dementia, shared with you by panel members of the National Council of Dementia Minds
- **Arts and Dementia** – demonstrations from Durham Medical Orchestra and Practice of Dance and Theater at Duke University
- **Community Partnership**, through sharing opportunities in break-out sessions

**FREE FORUM, REGISTER NOW!**
